

Elite School of Optometry's International Vision Science and Optometry Conference
(EIVOC)

15th to 17th August 2025 | Chennai Trade Centre, Chennai, India

Title of the workshop	Vision in the Workplace: A Visual Task Analysis Approach
About the workshop	This workshop explores the essential impact of vision on workplace performance, emphasizing how different job roles require varying levels of visual skills. Participants will learn how optimizing factors such as working distance, size of the object, and lighting can help reduce eye strain, improve comfort, and enhance overall work performance. Additionally, the session will focus on identifying vision-related challenges within various job functions and exploring effective strategies to boost efficiency and workplace safety.
Objectives	<ul style="list-style-type: none">• Understanding workplace visual needs• Arriving at Vision Standards – Task based vision demands• Arriving at job/task based test batteries• Identifying workplace hazards
Expected Outcome	This workshop equips professionals to provide comprehensive eye care by understanding their occupational visual needs both in terms of refractive needs and safety concerns.
Date	Aug 16, 2025
Target Audience	Optometry Students, Optometrists, Independent Practitioners
Duration	2 hours
Available slots	30
